

PEE DEE RIVER MAP

- RIVER MILES:**
- + CLARKS CREEK TO ROCKY RIVER CONFLUENCE.....5.0 MILES
 - + ROCKY RIVER CONFLUENCE TO GRIFFIN ROAD ACCESS.....3.5 MILES
 - + GRIFFIN ROAD ACCESS TO RED HILL ACCESS (HWY 109).....3.0 MILES

- CONSIDER THESE SAFETY TIPS WHILE ON THE RIVER:**
- Always exercise caution when boating or fishing on rivers.
 - Tell someone where you are going and when you plan to return. File a float plan.
 - Educate yourself about the area that you are visiting and wear appropriate safety equipment. Know your paddling expertise limits. Scheduled flow releases are subject to variability based on natural conditions and/or unexpected changes in hydro project operations.
 - Water in river channels may rise rapidly and without warning. Duke Energy may, at any time, and without prior warning, change operations of its hydro facilities in response to high electricity demand, flooding, electric system emergencies or other conditions.
 - Remember to stay 300 feet away from the upstream and downstream sides of the dam and powerhouse.

For additional information about the Tillery Hydroelectric Development and scheduled recreation releases visit:
